Creating Our Flask Application And Loading Our Model By Using Load_model Method

Date	8 November 2022
Team Id	PNT2022TMID07703
Project Name	AI-POWERED NUTRITION ANALYZER FOR FITNESS ENTHUSIASTS

Creating our flask application and loading our model by using the load_model method

```
app = Flask(__name__,template_folder="templates") # initializing a flask app
# Loading the model
model=load_model('nutrition.h5')
print("Loaded model from disk")
```
